SUMMARY

Highly motivated Java developer with a strong foundation in front-end development. Proven ability to learn quickly and deliver high-quality work, as demonstrated through internships at Codingraja and Encryptix. Eager to contribute to challenging projects and expand my technical skills.

WORK EXPERIENCE

front-end developer - Encryptix   May 2024 - Present

Developed responsive landing pages and calculators, enhancing user experience and project effectiveness through engaging design and front-end development expertise.

PROJECTS

Responsive Landing Page   Link to Demo

Developed a responsive landing page, ensuring seamless user experiences across multiple devices. Implemented cross-browser compatibility and optimized for mobile responsiveness. Utilized CSS media queries to adapt layout and content to screen sizes. Improved user engagement and conversion rates through a responsive design. Demonstrated proficiency in front-end development and design principles.

Sorting Visualizer   Link to Demo

Developed a Sorting Visualizer that demonstrates various sorting algorithms through animated bar representations. Color-coded operations (swap, comparison, sorted) enhance understanding. The project benchmarks algorithm performance by comparing execution times.

EDUCATION

Electronic and Communication engineering at G.Pullaiah college of engineering and technology - Nov 20

SKILLS

Java oop's through java

web development:Html Css Javascript Bootstrap Sql
